

We do not support the proposed media deregulation allowing ownership of television, radio, and newspapers to be consolidated any further. In fact, we would like to see the industry re-regulated to the extent that there is a much broader and diverse mix of ownership of all media.

We would like to see Clear Channel have to divest itself of every single station that it owns. It is a corporation that is far too powerful and does not reflect the voices of people in this country. If it does represent any voices in this country it is those of the blissfully ignorant.

Mr. Powell, you must realize that our view is shared by the vast majority of people in this country. Please do not lift the regulations on media.
